

## Table of Contents

### Teacher Manual – Lesson Plans

---

#### Unit 1: Applications in Remote Sensing

Lesson 1 – Using Data in Image Analysis.....	1-1
Lesson 2 – Orthorectification .....	1-3
Lesson 3 – Feature Extraction .....	1-4
Lesson 4 – Vegetation Mapping & Change Detection.....	1-5
Lesson 5 – Image Enhancement .....	1-6

#### Unit 2: Applications in Surface Analysis

Lesson 1 – Measuring Distance & Assigning Allocation .....	2-1
Lesson 2 – Mapping Density.....	2-3
Lesson 3 – Interpolating Feature Data to Raster Surface .....	2-4
Lesson 4 – Performing Surface Analysis .....	2-5
Lesson 5 – Analyzing Raster Statistics .....	2-6
Lesson 6 – Local Applications in Surface Analysis – A Mini Project .....	2-7

#### Unit 3: 3D Visualization of Geospatial Data

Lesson 1 – Data Visualization.....	1-1
Lesson 2 – 3D Data Acquisition.....	1-3
Lesson 3 – 2D-3D Feature Data .....	1-4
Lesson 4 – 3D Non-Elevation Data.....	1-5
Lesson 5 – 3D Surface Analysis .....	1-6
Lesson 6 – 3D Global Visualization .....	1-7
Lesson 7 – 3D Animation.....	1-8

#### Unit 4: Applications in Geospatial Networks & Routing

Lesson 1 – Exploring Geospatial Networks .....	4-1
Lesson 2 – Finding the Best Route .....	4-3
Lesson 3 – Finding the Closest Facilities.....	4-4
Lesson 4 – Determining Service Areas.....	4-5
Lesson 5 – Modeling Real World Networks .....	4-6
